## REMARKS

This Amendment is filed in connection with a Request for Continued Examination in connection with the above-identified application, the claims of which stand Allowed. This request is filed before payment of the issue fee, and thus, should be considered timely. In reviewing the allowed claims, applicant discovered that the term "web server" on line 20 of claim 20 was potentially inaccurate in the context of a PDA-HMI embodiment as claimed. Accordingly, the term "interface element", which appears at page 10, line 20 of the Description has been substituted by this amendment. The same mistake for claim 17 was previously corrected with an earlier RCE and amendment. Also, a typographical error of the word "pocket" in claim 17 was changed to "packet." The claims are otherwise unchanged and should remain allowable. In particular, the stated function of the web server, versus the interface element is unchanged and it is believed that this amendment does not alter the scope of the claim or this term on the merits.

Accordingly, applicant respectfully requests issuance of a new Notice of Allowance at the earliest possible date.

Applicant earnestly solicits the examiner to contact the undersigned by telephone call to advance the prosecution in any respect.

If necessary, please charge any additional fees or credit overpayment to Deposit Account No. 03-2357

Respectfully submitted,
